

## Can Her Majesty save our park?

Pictured is MECPG member Irene taking the "Save our Park" message direct to Buckingham Palace.

The Merri and Edgars Creek Parkland Group (MECPG) have been fighting now for three years to keep the Edgars Creek parkland as public open space. MECPG has become increasingly frustrated at the inability of the State Government to do the only just, fair and sensible thing and that is to gift the VicRoads parcels of land to the people of Moreland.

Members of the group decided to "think big" and "go global" and take the "Save our Park" message to higher authorities. First stop – Buckingham Palace.
